

## 22 Days to Heart Oriented Manifesting

When I first envisioned this program, my initial thought that I should call it 22 Days to Make More Money. I loved that name because who doesn't want to make more money? But when I meditated upon who would be attracted to a program with this name, they just didn't feel like they would resonate with a heart and soul-oriented approach to manifesting.

My next idea was to call it the 22 Days to Mindfully Create More Money. But this title didn't work for me because while I love mindfulness, what I want to do in this program is to shift each of us to manifest from our soul and multi-dimensional HEART and NOT from our egoic mind and brains. Hence the title 22 Days to Heart Oriented Manifesting.

Our life is created from the inside out. We are the Source of Our Abundance, Money, Wealth, Income, Prosperity and Success. Every aspect of our outer life is created by our inner beliefs, consciousness and vibration. Most people manifest focus on creating the outer effects of abundance rather than focusing upon the inner source of abundance.

**If you have extraordinary focus and very few wishy-washy thoughts it can work for you but is much slower and less effective because it is a form of indirect manifesting.**

**The first goal of this program is to focus and strengthen your connection to your soul who acts as the gatekeeper between us and the higher dimensions which are the true origin of our abundance. Our soul both simultaneously creates everything in our life and receives everything in our life.**

**The act of creating focuses on purifying what our heart wants and adding higher vibrational frequencies to it. The act of receiving is about creating and expanding the number of energetic pathways we can receive from and clearing any blockages from the existing channels for receiving that we have already opened or tapped into to some extent.**

**The second goal of the program is help us to become more focused on creating and receiving and more aware of what we are creating and receiving rather than leaving it up to chance or wishy-washy thinking.**

## **Why do some people succeed and others fail financially?**

To make more money you must simultaneously create it from the inside out and then be open to receive it. The better your financial mindset or vibration is around money, the easier it is for you to create and receive more money.

Where do you feel your money, wealth, abundance, prosperity and success originate from? Most people have a mindset that their money, wealth, abundance, prosperity and success come from either a job or business or investments or pension or investments.

To the extent that you feel your money originates from outside yourself, you are giving away your financial power to others. What this means is that your income and money will often fluctuate depending on what both you and others feel is going on in your job, education level, the economy, how your business is doing etc.

Successful people with a prosperity consciousness know at a very deep level that they are the source of their abundance. This mindset makes it so much easier to manifest. If they want more money: they accept their financial situation as it is, take responsibility for their money situation and go within to create more money.

Another way to put it is that if you believe your money comes from outside of yourself you are indirectly manifesting whereas if you know deeply in your heart that you create money from inside of yourself, you are directly manifesting.

Direct manifestation is much more powerful because it is not only much more effective and efficient but also **because it is totally determined by yourself.**

Some people know that they are the source of their money but are unable to create more money because they are not open to receive more money. We all have a certain comfort zone or vibration about how much money we are open to receive. This is why it is so important to heal your relationship with money and raise your financial vibration so you feel comfortable having more of it.

**Our soul or spiritual connection/activity creates the energetic potential for money on the spiritual plane but we need to be able to receive and open to receive more money on the physical plane of reality.**

The upward financial spiral is where you create more money which increases the momentum to receive more money which expands your ability to create more money which increases your comfort zone so you can receive more money.

**This program largely focuses on three things:**

- **Healing our relationship with money so we can enjoy more of it;**
- **Deeply embodying the mindset that YOU are the source of your abundance which supports direct manifesting and helps you to create the energetic foundation which expands your energetic potential to create money.**
- **Awakening, Opening and Expanding Our Quantum Centers for Creating and Receiving so we can connect more deeply with our soul and raise the vibration of our intentions around manifesting.**

**Day 21**

VOID Alignment with the Field of Infinite Potentiality

## What YOU Get and Ordering Information

The 22 Days to Heart Oriented Manifesting has over 44 audio recordings. Each day I created two audios to participants who enroll in the program to help them with one specific focus.

I used a mix of different approaches to healing mp3s in this program since different people respond with each of these approaches. There are three types of audios included in this 22 day program. The first type is a clearing and healing mp3, the second type is an affirmation healing mp3 and the third type is a guided visualization mp3.

In addition to the over 44 mp3 audio recordings I prepared for this program, I am also offering each person who participates in this program a month of my Daily Healing and Financial Support Program (\$57 value).

The cost of this program is \$333.
