

Realize YOUR Full Potential Daily Healing Support Program

Over my 22 years of spiritual healing experience, I have experimented with numerous ways to help people to **realize their full potential to heal, grow and succeed.**

When people are in a crisis, the most effective way to help them is normally through a telephone healing session. While a LOT can be covered in a telephone session, what most of my clients really need is daily healing support and assistance to help us to consistently grow, heal, succeed and play nicely with others.

In the past I did this by offering four daily healing support programs for each area: Healing, Money, Spiritual Growth and Relationships. These programs became some of my most popular offerings since most participants felt a huge increase in their well-being when they joined the program.

What I noticed over time, however, was that while these daily support programs helped people in the area they chose to work on, their overall progress became uneven. While the area focused upon was much better over time it became unbalanced with the other ones.

It was like sitting on a three leg stool as opposed to a four leg stool. You can sit on both but you feel more stable with the four leg one.

I designed this program to help people to **realize their full potential in ALL areas of their life.** I decided to take the most powerful forty-four healing transmissions from each of the four areas and combine them to form the Realize YOUR Full Potential Daily Healing Support Program.

The rest of this document lists the descriptions for each of the forty-four daily healing transmissions that comprise this program. The cost of the Realize YOUR Full Potential Daily Healing Support Program is just \$77 a month, recurring.

As a bonus incentive and gift to participants I am also including in this program a daily Divine Ideal Clearing and Healing Blast to help each of us to clear, heal and release whatever is aligned with our highest good at that time PLUS a daily Feng Shui Home Clearing Blast (\$720 value).
