Practical Mastery Video 3: PM Shield Package

The PM Shield Package is perhaps the most important video in this series. When I was downloading the Practical Mastery modality, I knew that there were shields associated with it but unlike the other sessions, I did not get any individual names for shielding sessions. When I began downloading the shields, I got that I needed to download a package of shields. A lot of these shields involve advanced cloaking and protection from the adversary to light, help you to repel people not aligned with your path of mastery from entering your life, protect your home and car, shield you from less-than-love earth energies and frequencies.

I asked one of my most gifted channel friends to channel some more information and this is what Melchizedek said: "The Practical Mastery shield package will assist one in the ultimate protection that is available from the Creator at any given time in your evolution so that you can evolve without the distractions of lower vibrations hindering your growth. These shields will allow discovery of issues to be healed, while still providing optimal protection. In the past, shields would come down or become less effective if a major issue came up for discovery and the individual was left vulnerable until the issue was discovered and healed. With these shields you are protected throughout all phases of discovery and extra angelic guidance is provided to assist you in all phases of discovery and healing. These PM Shields roll back to the seed so that your host body and your mother are provided with energetic protection throughout the whole gestation and birthing period. These shields are all one ever needs in this lifetime because these shields grow and evolve with you - providing optimal shielding, protection and cloaking as your vibration rises. Once you receive this package, if at anytime during your evolution you feel you need upgraded shields, all you have to do is silently say in your mind, **"Creator I choose upgraded shielding NOW"** and it will be done instantly. Currently, there are 700+ shields and cloaking mechanisms in this package that can grow exponentially with the individual."

Unlike many of the other shields I have worked with, these shields allow you to carry out your service work and be visible in the world at the same time. The Practical Mastery Shield Package also includes a number of filters to help you to not pick up as much less-than-love energies from parallel/alternative realities, empathy and energetic resonance with others. Please note that the number of shields that each person receives is based on their level of mastery and light/love quotients. The shields only need to be done once and they are calibrated to download automatically as required as people grow and expand.

We will conclude with a transmission of frequencies to assist you in integrating these PM frequencies into your beingness with ease and grace and the divine ideal integration.

Clearing the Energetic Spaces

It has always been a great mystery to me that I clear so much in myself and I have great shielding and yet it seems that there is always more debris to clear out. I have been working intensely with a healer who works on recalibrating people's energy fields so that the energetic doorways, openings, portals and gateways on the planetary, solar, galactic and universal levels across time, space, dimensions, angles, directions and vectors, etc. are closed down. I have felt a huge difference from this work. I asked GOD if there was any way that I could help people do this and I was shown a whole bunch of Clearing the Energetic Spaces Templates that I could transmit to clients which would go after these core patterns and recalibrate the energetic fields and consciousness.

The first transmission is **Clearing the Energetic Spaces Around Addictions and Addictive Behaviors, Patterns and Programming.**
